

CEWELD SPA FeAl5

TYPE	Cored wire for the thermal spray process
ANWENDUNGEN	Rough surfaces against sliding and or applications that require a smooth finish after machining.
EIGENSCHAFTEN	Aluminium alloyed tubular wire for electric arc spray on a Fe-Al basis with high bond strength.
KLASSIFIKATION	
GEEIGNET FÜR	Coating walking surfaces against sliding, stairs, traction wheels and rollers, buffer layers etc.
ZULASSUNGEN	
SCHWEISSPOSITIONEN	

MECHANISCHE GÜTEWERTE

RÜCKTROCKNUNG Not required

GAS ACC. EN ISO 14175
