

CEWELD SPA FeAl5

TYPE	Cored wire for the thermal spray process
APPLICATIONS	Rough surfaces against sliding and or applications that require a smooth finish after machining.
PROPERTIES	Aluminium alloyed tubular wire for electric arc spray on a Fe-Al basis with high bond strength.
CLASSIFICATION	
SUITABLE FOR	Coating walking surfaces against sliding, stairs, traction wheels and rollers, buffer layers etc.
APPROVALS	
WELDING POSITIONS	
MECHANICAL PROPERTIES	
REDRYING	Not required
GAS ACC. EN ISO 14175
